STARK Rubber Belt Cutter

The STARK Rubber Belt Cutter is designed for cutting rubber fabric conveyor belts up to 50 mm thick. It is supplied in a hardcase with a battery and charger, with a choice of Makita or Milwaukee battery systems. Manufactured in Europe.

High torque for efficient and precise cutting, even in demanding applications.

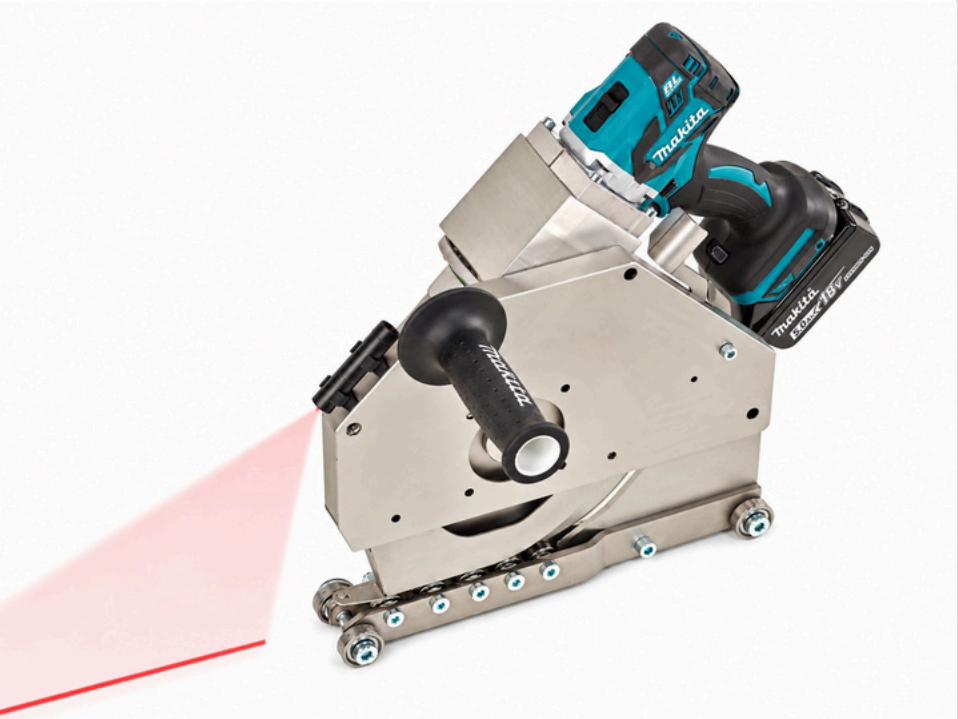

Variable Speed Control
Two adjustable speed levels (High/Low) allow you to match the cutting speed to the application.

Ergonomic & Safe Design
A balanced design, ergonomic handle, integrated laser guidance for controlled cutting.

Lightweight & Mobile
Weight 11,2 kg and offering up to 1 hour of battery operation, the STARK Rubber Belt Cutter combines cordless mobility with reliable performance.

Technical specifications

Controlsystem: Makita or Milwaukee
Voltage: 18 V/ 40 V Battery
Thickness: 50/70mm
Speed: 0-26 RPM
Belt Type: Fabric conveyor belts
Weigth: ~11,2 Kg
CE: CE Certified
